## 5. Accounting Policies

The financial statements are prepared in accordance with Singapore Financial Reporting Standards (International) ("SFRS(I)").

The Group has applied the same accounting policies and methods of computation in the financial statements for the current period as in the audited financial statements for the year ended 31 December 2019 except for the adoption of the new and revised "SFRS(I)s, and Interpretations of SFRS(I) ("SFRS(I) INTs") that are effective for the annual period beginning on 1 January 2020. The adoption of these SFRS(I)s and SFRS(I) INTs does not have any material effect on the financial statements of the Group and the Company

## 6. Review of Performance

The Group recorded a lower net profit after tax of \$3.9 million for the second quarter of 2020, a decline of 22.2% as compared to the same period last year. The weaker performance was primarily attributable to the additional general allowances provided in view of the severe impact of the Covid-19 pandemic on the macroeconomic situation and outlook.

For the first six months of 2020, the Group provided additional \$3.3 million allowance for credit losses versus \$0.3 million in the first half of 2019. This resulted in \$2.0 million or 19.7% decline in net profit after tax from \$10.0 million to \$8.0 million over the same period.

Operating profit before allowances and tax for first half 2020 was \$12.7 million, an improvement of 3.7% over last year, largely assisted by the grant from the Government Job Support Scheme, which was included and disclosed as other income in the Statement of Profit or Loss. Net interest income and hiring charges decreased by \$0.6 million or 2.6% to \$22.0 million compared to \$22.6 million in the previous corresponding period. This was mainly due to the \$1.9 million increase in interest expenses, which more than offset the additional \$1.3 million in the interest income due to higher loan balance during the period.

Total operating expenses increased by 5.0% driven by higher additional depreciation charges because of our digital transformation investments as well as staff costs.

The additional allowances of \$3.3 million made during the first half of 2020 were predominantly general allowances for non-impaired assets. The Group continues to maintain adequate and prudent loss allowances in respect of its loan portfolio and other assets.

The increase in the Other Comprehensive Income amounting to \$4.7 million was due to the appreciation in the fair value of the Singapore Government Securities ("SGS") during the first half of 2020. The Group purchases SGS as part of its liquid assets for the purposes of maintaining the minimum liquid assets required under the Finance Companies Act.

Loans and advances declined slightly by 1.5% or \$31.7 million during the period, from \$2.19 billion as at 31 December 2019 to \$2.15 billion as at 30 June 2020. This was largely because of the Circuit Breaker measures, which included the suspension of non-essential services during the period of April and May 2020. However, the Group has been actively supporting our customers with their working capital and cash flows during this difficult period via the Enterprise Singapore ("ESG") Temporary Bridging Loans and Enhanced working capital loans. If not for the new ESG loans, the decline in the loan balances would have been greater. Customers' deposits and balances decreased by 3.3% to \$2.41 billion as at 30 June 2020 compared to 31 December 2019.

In the opinion of the Directors, no item, transaction or event of a material and unusual nature has arisen which is likely to affect substantially the results of the operations of the Group and the Company in the interval between the end of the financial period and the date of this report.

## **7. Comments on Significant Trends and Competitive Conditions in the Industry**

According to the Ministry of Trade and Industry (“MTI”)’s advance GDP estimates on 14 July 2020, the Singapore economy contracted by 12.6% on a year-on-year basis in the second quarter of 2020, due to the Circuit Breaker measures, as well as weak external demand amidst a global economic downturn precipitated by the COVID-19 pandemic. On a quarter-on-quarter seasonally-adjusted annualised basis, the economy shrank by 41.2% in the second quarter. MTI has also revised downwards the GDP growth forecast for 2020 to “-7.0% to -4.0%”.

Going forward, the outlook is still fraught with great uncertainties, especially over the trajectory of the COVID-19 pandemic.

During this period of the COVID-19 outbreak, the Group has been actively helping our individual customers to ease their financial strains and our corporate borrowers with their cash flows constraints. This has been achieved through the various MAS’ credit relief measures, which include the temporary deferment of loan repayment instalment until the end of 2020, as well as the ESG Enhanced Working Capital Loan and Temporary Bridging Loan schemes. These schemes are funded at low interest cost by the MAS.

The safeguarding of the health and well-being of our customers and staff at our branch premises has also been our key focus during this period. All necessary precautionary measures, including safe distancing, temperature screening and contact tracing via the Safe Entry app have been implemented. We have also seen greater usage of our digital app for banking transactions and continue to encourage more customers to adopt the digital channel in order to minimise the need to visit the branch. Currently, about half of our staff at the head office are working from home.

Notwithstanding the current period of great public health and economic crisis, the Group is confident that with our strong capital and liquidity positions, the Group will be able to weather the crisis. The Group will continue to be vigilant, prudent and disciplined in our risk and cost management to serve all our stakeholders.

## **8. Dividend**

No dividend has been recommended for the present financial period.

Dividend declared for the previous corresponding period – Nil.

## **9. Changes in the Company’s share capital arising from rights issue, bonus issue, share buy backs, exercise of share options or warrants, conversion of other issues of equity securities, issue of shares for cash or as consideration for acquisition or for other purpose since the end of the previous period reported.**

There has been no change in the Company’s share capital arising from the above issues.

As at the end of the financial period, there were no outstanding convertibles (30 June 2019: Nil).

## **10. Sales, transfers, disposal, cancellation and /or use of treasury shares as at the end of the financial period.**

Not applicable. During the financial period, no shares were held as treasury shares.

### 11. Shareholders' mandate for interested party transactions ("IPT")

The Group has not sought any shareholders' mandate for IPTs pursuant to Rule 920 of the SGX-ST Listing Manual.

### 12. SGX-ST Listing Manual Rule 720(1) – Procurement of undertakings to comply with listing rules from all directors and executive officers

Pursuant to Rule 720(1) of the SGX-ST Listing Manual, the Company has procured undertakings to comply with the Exchange's listing rules from all its directors and executive officers.
